Summary

- **Frontend Engineer** with more than 2 years of experience building scalable **websites and mobile apps from scratch**. I have been working remotely, focused on **React**, **Next.js** and **TypeScript**.

Skills

- React | TypeScript | Next | JavaScript | React Native | HTML | CSS | SASS | Tailwind | Styled-Components | Redux | Git & GitHub & GitLab
- UX/UI | Design Systems | Storybook | Web Accessibility | REST API | Node.js | Express | MongoDB | Data Structures | Scrum & Kanban

Experience

Frontend Developer   **Sonda** - *Chile / Brazil*   **05/2023 - Current**

- Bridged the gap between UX designers and developers, helping in decision-making in the development of the **Design Systems**;
- Created a **library of consistent and usable components** that are performant, easy to use, accessible, and well documented;

Frontend Engineer   **Nano Incub** - *São Paulo, Brazil*   **08/2022 - 05/2023**

- Built and maintained a business platform to serve *more than 25,000 user employees from the biggest mills in the country;*
- Developed more than 5 projects using **React.js**, **React Native**, **TypeScript** and Styled-Components, managing large volumes of data;;
- Translated **Figma** design into UI Components with **Atomic design methodology**, that can be consumed by larger applications;
- **REST-based API** design and consuming (Axios and fetch), managing large volumes of data, including integration with the company's ERP.

Software Developer (Freelancer)   **CVFY** - *Northampton, England, UK*   **04/2022 - 08/2022**

- Developed a mobile app focused on user experience and clean design, with **React Native CLI** and **TypeScript**;
- Created a responsive landing page aimed at converting new users to the platform, **React.js** and TypeScript;
- Built software's user interface according to **Adobe XD** mockups following UX guidelines and **Notion tasks**;
- Worked with feature branches, pull requests, conflict solutions, code reviews, debug issues and version control with **Git & GitHub**.

Frontend Developer   **NB Consulting IT** - *São Paulo, Brazil*   **01/2021 - 03/2022**

- Developed server-side rendered websites and mobile applications with **React.js, Next.js**, and **React Native**;
- Helped with technical solutions in multiple projects, working alongside the designers and customers, **improving UI and overall UX**;
- Implemented improvements in the management and distribution of tasks, reducing delays and **increasing the volume of deliveries**;
- Built UI according to **Figma** mockups following defined UX guidelines, developed and maintained **reusable components**;
- Reviewed the code of my peers and provided constructive feedback.

- Before becoming a developer, I worked for **5 years as a graphic designer**.

Projects

- **CAULE:** Mobile app used by employees to query payroll, contact HR department and other features. Integrated with the company's Enterprise Resource Planning, built with React Native, TypeScript and Styled-components. Link to [landing page](#) **(08/2022 - 01/2023)**

- **SCOUTFY:** Sports management platform for amateurs to high-performance athletes, who can build a sports resume, apply for grants and sponsorships. Mobile first website, built with Next.js, Redux, Styled-Components and Storybook. Link to [website](#) **(07/2021 - 04/2022)**

- **COMIDA NA HORA:** Food delivery app. A restaurant marketplace as a showcase for local businesses, with tens of thousands of downloads. Built with React Native, TypeScript and Styled-components. Links to app stores: [iOS](#) and [Android](#) **(12/2022 - 01/2023)**

Education

Bachelor's degree   **Unifor - Fortaleza University**   *Fortaleza, CE, Brazil*   **08/2004 - 12/2008**

- Advertising and Marketing
